

January 26, 2016

Thank you for your application to join the Electronic Industry Citizenship Coalition Inc. (EICC). The Board of Directors reviewed your application and has approved your company, Semtech Corporation, to join as an Applicant Member. Congratulations and welcome to the EICC!

As a next step, your company will need to complete the Corporate Self-Assessment Questionnaire (SAQ), through EICC-ON, within 90 days. In addition, your company will need to make a public statement of its commitment to the [EICC's vision and mission](#), either via press release or as inclusion on the company's corporate website.

EICC staff will host an onboarding session with you to review the structure of EICC, provide information on work groups and task forces, and answer any questions you may have.

Again, welcome to the EICC and we look forward to working together to improve efficiency and social, ethical, and environmental responsibility in the global supply chain.

Best regards,

Robert Lederer
EICC Executive Director
